WHEREAS, the City of Port Huron signed a Memorandum of Understanding with Macomb County in January 8, 2007, to participate in the Drinking Water Monitoring System project; and

WHEREAS, this project was originally funded with federal, state, county and municipal funds; and

WHEREAS, the City of Port Huron has made cash and in-kind contributions over the years which have been used as matching funds for state and federal grants and have helped Macomb County, as fiduciary, to operate and maintain the system; and

WHEREAS, the City Council has authorized \$5,000 in the current year's budget to fund our share of these costs; and

WHEREAS, the ability to obtain additional grant money to support operations is not available and it is the intent of Macomb County to turn operational responsibility for the monitoring equipment over to the municipalities that operate water treatment facilities as of November 30, 2012; and

WHEREAS, Macomb County is going to begin a transitional year (December 2011 through December 2012) during which Macomb and St. Clair counties will continue to jointly support and provide the data management system at a cost of \$50,000 each; and

WHEREAS, each municipality is being to asked support and operate the equipment installed at their water filtration plants and pay a fee to a consultant to operate data acquisition and the website systems to update all water plants of monitoring data; and

WHEREAS, the current monitoring equipment installed at the City's water filtration plant has an estimated annual operation and maintenance cost for the upcoming year of \$11,000 which would cover routine maintenance, trouble shooting and sensor replacement; and

WHEREAS, under a new operating agreement, the City would also become responsible for replacement of the current monitoring equipment in the future which is estimated to be approximately \$25,000; and

WHEREAS, Macomb County has offered each original participant of the Drinking Water Monitoring System the option to continue participating under the terms and conditions stated in the *Operations To Be Carried Out By Municipalities* document or to withdrawal from the Drinking Water Monitoring System at which time Macomb County will uninstall and take possession of the monitoring equipment originally installed at no cost to the City; and

WHEREAS, Macomb County has clearly stated that their responsibilities and assumption of costs will end November 30, 2012, and they have no intent on contributing funds to the data management system; and

WHEREAS, the intent of St. Clair County to contribute funds for the Drinking Water Monitoring System is unknown; and

WHEREAS, the current cost of the data management system is approximately \$100,000 and is currently being funded by Macomb and St. Clair counties through November 30, 2012; and

WHEREAS, depending on the number of participating municipalities, the potential for an increase in cost to the City to participate in the Drinking Water Monitoring System could be significant; and

WHEREAS, it is our understanding, at this point, that several downriver communities have opted out of the Drinking Water Monitoring System and one community has instituted a new fee on their customers to support the system; and

WHEREAS, while the Drinking Water Monitoring System has some benefit to the City's water filtration plant, the potential risk to the City's raw water intake is minimal compared to other participating downstream water filtration plants because of our location on the St. Clair River; and

WHEREAS, the City's previous cash and in-kind contributions for the Drinking Water Monitoring System was warranted for the benefit received from the Drinking Water Monitoring System; and

WHEREAS, with the known and unknown increase in annual operation and maintenance costs for the City in the next and following years, the City has a less costly alternative method of monitoring our water intakes to achieve similar results; and

WHEREAS, along with sampling protocol, the City staff at the water filtration plant can install less costly monitoring equipment that would detect a potential problem prior to the water being distributed resulting in no additional risk to the City's public drinking water system and allowing staff to contact other downstream water systems on a timely basis; and

WHEREAS, if all users of the system paid a proportionate share of the cost of the system based upon customers served, the City may reconsider participating in the program;

NOW, THEREFORE, BE IT RESOLVED that the City Council does hereby authorize the appropriate City officials to sign the "Statement of Intention" indicating that the City of Port Huron does **not** agree to participate or continue participating in the Drinking Water Monitoring System from December 5, 2011, through December 2, 2012, under the terms and conditions described in *APPENDIX B: OPERATIONS TO BE CARRIED OUT BY MUNICIPALITIES* (see City Clerk File #12-12).

DISCUSSION ITEMS

1. Julie Davis, Human Resources Director, commented that the City has been working with Brown & Brown Insurance (formerly known as PEBS), as our agent of record, to review the City's health care costs and to review possible changes to retiree health care. Angela Garner and Dan Skiver from Brown & Brown explained proposed changes to the retiree health care plans that could help with controlling increasing costs. See City Clerk File #12-15 for a copy of their presentation.

2. Bruce Brown, City Manager, outlined the calendar for the proposed budget. After the budget requests by the various departments are reviewed, a March budget session will be scheduled to give Council another opportunity to discuss budget issues prior to the printing and distribution of a proposed budget.

3. John Ogden, Director of Finance, highlighted the following current and future financial situations:

Current budget - Revenues and property taxes are close to the adopted budget, revenue sharing should be higher, expenditures overall appear to be under budget, except for the police department due to overtime and operations which may have been estimated too low.

Upcoming budget - A deficit is anticipated between the General Fund expenditures and revenues, but it is difficult to estimate at this time. Much will depend on the State and whether they reduce revenue sharing or eliminate or reduce personal property taxes, which are the unknowns with the biggest potential impact. In addition to the General Fund, there are a number of other funds that are also going to be challenges. Below are some of the concerns mentioned, many of which continue to place a strain on subsidies to the Wastewater and Water funds:

- *Water and Wastewater Funds* - Operating expenses are being controlled and should be less than budgeted. Revenues are above, although water plan production in December declined. Debt service is continuing to grow and revenues will need to grow to meet the total costs of the two funds. The current subsidies will either continue to decline gradually or they will end abruptly as all the other funding sources are depleted. If that happens, it would require what could be a doubling of rates. It will take continuing smaller rate increases to avoid the huge rate increase.
- *Rubbish and Solid Waste Fund* - The fund is operating at a deficit and is being funded by surplus amounts. Reductions in services and/or costs are being reviewed.
- *Parking and Marina Funds* - Annual subsidies continue to be necessary.
- *Tax Increment Funds/Land Purchase Fund* - With declining taxable values, captured taxes are also declining. As a result, repayments to the land purchase fund have decreased, resulting in fewer funds available for subsidies to other funds, primarily the water and wastewater funds.
- *Rental Certification Fund* - Operational expenses have increased significantly due to increased frequency of inspections. Annual fees will need to be increased to operate this fund on a break-even basis, as required.
- *Motor Vehicle Pool Fund* - Past years' rental rates were reduced or held flat to reduce costs in other funds, including the General Fund. Projected revenues will not be sufficient for operating expenses and capital needs. Rates will need to be increased; however, rates continue to be lower than published State rates.
- *McMorran* - An increase in the support for McMorran is anticipated to eliminate their deficit this year and next year. A deficit for McMorran could impede the City's future ability to borrow.
- *General Fund* - Areas of concern for next year's budget include:
 - Real property tax revenues are expected to decline by 10%, approximately \$600,000, but will be dependent upon appeals, commercial property changes and the inflation adjustment.
 - Personal property tax revenue is a little over \$1 million. It is not clear if or what the State is going to propose as a change to personal property taxes.
 - Statutory revenue sharing is approximately \$900,000 and there is no indication yet by the Governor what might happen for next year.
 - Interest income is expected to remain low. Other than long term CD's, earnings continue to be under 1/2%.

- The healthcare benefit cost reduction goal of \$900,000 has not been attained in the current budget, but it is close. There is room for further reductions for both current employees and retirees without significantly impacting the participants. The goal is to reduce overall costs by changing behavior. Without further reductions, the benefit percentage could increase.
 - Step increases approved in the police and fire contracts will cause an increase in wage costs. In addition, the current police budget is too low and it appears that expenses will exceed the budget, particularly in patrol and detectives. Further reductions will be difficult in this budget, especially given that the grant for two police patrol positions will expire in June. The Chief is checking to see if the grants can be extended as we have not expended the total amounts awarded.
 - The DDA fund balance is almost exhausted and the various downtown activities (Downtown PH, BW Fest, Offshore races, etc.) in aggregate will cost more than the annual available revenues.
- Planning and community development costs will increase in the General Fund due to increases in activities related to demolitions and blight. Reductions in federal funding levels will also cause administrative allocations to be taken from General Fund dollars.
 - Blight and demolitions are significantly higher than in prior years with reimbursement rarely being received from property owners. This will continue to impact budgeted expenditures.
 - The Museum continues to receive support from the City primarily for the Carnegie Building in the form of utilities, insurance, repairs and maintenance.
4. Some of the other items brought up for discussion by Council included the number of CSO projects remaining (Nern Street and the Blue Water Bridge area), the need for a list of all City-owned buildings and parking lots. The City Manager also mentioned that consolidation and privatizing City services are continuing to be researched. In addition, a robotics plant will be relocating from Auburn Hills to the City's Industrial Park in the near future.

On motion (8:20 p.m.), meeting adjourned.

WHEREAS, Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"), authorizes the City of Port Huron, County of St. Clair, State of Michigan (the "City") to refund all or any part of its outstanding securities; and

WHEREAS, the City previously has issued its General Obligation Limited Tax Bonds, Series 2003B, dated November 1, 2003, in the original principal amount of \$5,500,000 of which \$4,000,000 presently remains outstanding (the "Prior Bonds"); and

WHEREAS, in order to achieve savings on the City's current debt service payments for the outstanding Prior Bonds, the City determines that it is in the best interest of the City to refund all or a portion of the Prior Bonds; and

WHEREAS, to finance the cost of refunding all or any portion of the Prior Bonds, the City deems it necessary to borrow the principal sum of not to exceed Four Million Dollars (\$4,000,000) and issue its refunding bonds therefor (the "Bonds"); and

WHEREAS, the City has received a proposal from Robert W. Baird & Co. to purchase the Bonds pursuant to a negotiated sale.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Authorization of Refunding Bonds; Bond Terms. Bonds of the City designated *2012 Sewer Refunding Bonds (Limited Tax General Obligation)* (the "Bonds") are authorized to be issued in the aggregate principal sum of not to exceed Four Million Dollars (\$4,000,000) for the purpose of paying the costs of refunding the Prior Bonds, including the costs incidental to the issuance, sale and delivery of the Bonds. The issue shall consist of bonds in fully-registered form of the denomination of \$5,000, or multiples thereof not exceeding for each maturity the maximum principal amount of that maturity, numbered consecutively in order of registration. The Bonds will be dated as of the date of delivery (or such other date as determined at the time of sale thereof, but in any event within 45 days from the date of sale of the Bonds), mature annually on April 1 in the years 2013 to 2023, inclusive (or such other dates as determined at the time of sale thereof) in the years and in the annual amounts determined at the time of sale and be subject to redemption in the manner and at the times and prices to be determined at the time of sale, provided that any redemption premium shall not exceed three percent (3%).

The Bonds shall bear interest at a rate or rates to be determined at the time of sale thereof but not to exceed five percent (5.00%), payable on October 1, 2012 (or such other date as determined based upon market conditions at the time of sale thereof), and semiannually thereafter, by check or draft mailed by the Transfer Agent (as hereinafter defined) to the registered owner

of record as of the 15th day of the month prior to the payment date for each interest payment. The record date of determination of registered owner for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future.

2. Execution of Bonds; Book-Entry-Only Form. The Bonds of this issue shall be executed in the name of the City with the facsimile signatures of the Mayor and Director of Finance and shall have the seal of the City, or a facsimile thereof, printed or impressed on the Bonds. The principal of the Bonds shall be payable at the corporate trust office of a banking institution or trust company qualified and selected by the Director of Finance to act as the bond registrar/paying agent for the Bonds (the "Transfer Agent"). No Bond shall be valid until authenticated by an authorized officer or representative of the Transfer Agent.

The Bonds may be issued in book-entry-only form through the Depository Trust Company in New York, New York ("DTC") and any officer of the City is authorized to execute such custodial or other agreement with DTC as may be necessary to accomplish the issuance of the Bonds in book-entry-only form and to make such changes in the Bond form within the parameters of this resolution as may be required to accomplish the foregoing.

3. Transfer of Bonds. The Transfer Agent shall keep the books of registration for this issue on behalf of the City. Any Bond may be transferred upon such registration books by the registered owner of record, in person or by the registered owner's duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any Bond or Bonds shall be surrendered for transfer, the City shall execute and the Transfer Agent shall authenticate and deliver a new Bond or Bonds, for like aggregate principal amount. The Transfer Agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

4. Debt Retirement Fund. The Director of Finance is hereby authorized to open a separate depository account with a bank or trust company designated 2012 REFUNDING BOND DEBT RETIREMENT FUND (the "Debt Retirement Fund"), the moneys to be deposited into the Debt Retirement Fund to be specifically earmarked and used solely for the purpose of paying principal of and interest on the Bonds as they mature. All proceeds from taxes levied for the Debt Retirement Fund, if any, shall be deposited into the Debt Retirement Fund as collected. Commencing with the fiscal year 2012-13, there shall be levied upon the tax rolls of the City for the purpose of the Debt Retirement Fund each year, in the manner required by the provisions of Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"), an amount sufficient so that the estimated collection therefrom, together with other available moneys, including specifically revenues from the City's sanitary sewer and storm water system, will be sufficient to promptly pay, when due, the principal of and interest on the Bonds becoming due prior to the next annual tax levy; provided, however, that if at the time of making any such annual tax levy there shall be surplus moneys on hand in the Debt Retirement Fund for the payment of principal of and interest on the Bonds, then credit therefor may be taken against such annual levy for the Debt Retirement Fund. Such tax levy shall be subject to applicable statutory, charter and constitutional tax rate limitations.

5. Use of Proceeds; Escrow. The proceeds of the Bonds shall be used to pay the costs of issuance of the Bonds and to secure payment of the Prior Bonds as provided in this paragraph. Upon receipt of the proceeds of sale of the Bonds, the accrued interest, if any, shall be deposited in the Debt Retirement Fund for the Bonds. From the proceeds of the Bonds there shall next be set aside a sum sufficient to pay the costs of issuance of the Bonds in a fund designated 2012 REFUNDING BOND Issuance Fund (the "Issuance Fund"). Moneys in the Issuance Fund shall be used solely to pay expenses of issuance of the Bonds. Any amounts remaining in the Issuance Fund after payment of issuance expenses shall be transferred to the Debt Retirement Fund for the Bonds.

The balance of the proceeds of the Bonds together with any moneys transferred by the City at the time of sale of the Bonds from the debt retirement funds for the Prior Bonds, if any, and any other available funds of the City, shall be held as cash or invested in direct obligations of or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America or other obligations the principal of and interest on which are fully secured by the foregoing (the "Escrow Fund") and used to pay principal, interest and redemption premiums on the Prior Bonds. The Escrow Fund shall be held by a banking institution or trust company selected by the Director of Finance, to serve as escrow agent (the "Escrow Agent") pursuant to an escrow agreement (the "Escrow Agreement") which shall irrevocably direct the Escrow Agent to take all necessary steps to call for redemption any Prior Bonds specified by the City upon sale of the Bonds, including publication and mailing of redemption notices, on any call date, as specified by the City. The investments held in the Escrow Fund shall be such that the principal and interest payments received thereon will be sufficient, without reinvestment, to pay the principal, interest and redemption premiums on the Prior Bonds as they become due pursuant to maturity or the call for redemption required by this paragraph. Following establishment of the Escrow Fund, any amounts remaining in the debt retirement funds for the Prior Bonds shall be transferred to the Debt Retirement Fund for the Bonds.

7. Tax Covenant; Qualified Tax-Exempt Obligations.

The City shall, to the extent permitted by law, take all actions within its control necessary to maintain the exemption of the interest on the Bonds from general federal income taxation (as opposed to any alternative minimum or other indirect taxation) under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be Bond proceeds. The City hereby designates the Bonds as "qualified tax exempt obligations" for purposes of deduction of interest expense by financial institutions pursuant to the Code.

8. Covenant to Bondholders. The Prior Bonds, the Bonds, and all general obligation bonds of the City issued for the purpose of paying for improvements to the City's sanitary sewer and storm water system (the "System") are payable in the first

instance from the net revenues of the System. The System rates now in effect are estimated to be sufficient to provide for the payment of the expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the System in good repair and working order, to provide for the payment of the principal of and interest on the Prior Bonds, the Bonds and all other bonds payable from the net revenues of the System as the same become due and payable, and the maintenance of any reserves therefor, and to provide for all other obligations, expenditures and funds for the System required by law. The rates shall be fixed and revised from time to time as may be necessary to produce these amounts, and it is hereby covenanted and agreed to fix and maintain rates for services furnished by the System at all times sufficient to provide for the foregoing. The provisions of this covenant constitute a contract between the City and the bondholders, and for so long as there are any outstanding bonds of the City payable from the net revenues of the System, including the Bonds, this covenant shall not be repealed or amended in any respect which will adversely affect the rights and interests of the holders of the bonds, nor shall the City adopt any law, ordinance or resolution in any way adversely affecting the rights of the bondholders so long as any outstanding bonds of the City payable from the net revenues of the System or interest thereon remains unpaid.

9. Continuing Disclosure Undertaking. The City agrees to enter into an undertaking for the benefit of the holders and beneficial owners of the Bonds pursuant to Rule 15c2-12 of the U.S. Securities and Exchange Commission and the Director of Finance is hereby authorized to execute such undertaking prior to delivery of the Bonds.

10. Negotiated Sale. The City Council has considered the option of selling the Bonds through a competitive sale and a negotiated sale and, pursuant to the requirements of Act 34, based on the recommendation of the City's Registered Municipal Advisor (defined below), determines that a negotiated sale of the Bonds will result in the most efficient and expeditious means of selling the Bonds and will result in the lowest interest cost to the City.

11. Bond Purchase Agreement; Bond Sale; Award. Either Authorized Officer (hereinafter defined) is authorized to negotiate the sale of the Bonds with Robert W. Baird & Co. as managing underwriter (the "Underwriter") and execute a bond purchase agreement with the Underwriter as recommended by the City's Registered Municipal Advisor, and further to execute a sale order in respect of the Bonds and take all other necessary actions required to effectuate the sale, issuance and delivery of the Bonds within the parameters authorized in this resolution. The Underwriter's discount shall not exceed one percent (1%).

12. Adjustment of Bond Details. Each of the City Manager and the Director of Finance (the "Authorized Officers" and each an "Authorized Officer") is authorized to execute and deliver a sale order approving the final terms of the Bonds, adjust the final bond details set forth herein to the extent necessary or convenient to complete the transaction authorized herein, and in pursuance of the foregoing is authorized to exercise the authority and make the determinations authorized pursuant to Section 315(1)(d) of Act 34, including but not limited to determinations regarding interest rates, prices, discounts, maturities, principal amounts, denominations, dates of issuance, interest payment dates, redemption rights, the place of delivery and payment, designation of series, the portion or portions of the Prior Bonds to be refunded, and other matters, within the parameters established by this resolution, *provided* that a net present value savings of debt service shall exist upon the sale of the Bonds, the interest rate on the Bonds shall not exceed five percent (5.00%), and the Bonds shall mature not later than 2025.

13. Authorization of Other Actions. The Director of Finance is hereby authorized and directed to cause the preparation and circulation of a preliminary and final official statement with respect to the Bonds; to procure a policy of municipal bond insurance with respect to the Bonds or cause the qualification of the Bonds therefor if, upon the advice of the Registered Municipal Advisor to the City, the acquisition of such insurance would be of

economic benefit to the City; and to obtain ratings on the Bonds. The City Manager, the Director of Finance, the Mayor and any other officer or agent of the City is hereby authorized and directed to take all other actions necessary or advisable, and make such other filings with the Michigan Department of Treasury or with other parties, to enable the issuance, sale and delivery of the Bonds as contemplated herein.

14. Bond Counsel. Miller, Canfield, Paddock and Stone, P.L.C. is hereby approved as bond counsel to the City for the Bonds, notwithstanding periodic representation in unrelated matters of parties or potential parties to the transaction contemplated by this resolution, including the Underwriter.

15. Registered Municipal Advisor. The City hereby confirms Bendzinski & Co., Municipal Finance Advisors, as Registered Municipal Advisor to the City with respect to the Bonds.

SUSAN M. CHILD, CMC
City Clerk

Special meeting of the City Council of the City of Port Huron, Michigan, held Wednesday, March 7, 2012, at 6:30 p.m. in Conference Room 408, Municipal Office Center.

The meeting was called to order by Mayor Repp.

Present: Mayor Repp; Councilmembers Archibald, Cole, Harris and Ruiz.

Absent: Councilmembers Lewandowski and Moeller.

DISCUSSION ITEMS

1. Julie Davis, Human Resources Director, reviewed the proposed changes to retiree healthcare. She commented that projected annual savings would be \$600,000 with savings being achieved mainly by changing the prescription co-pay structure. She commented that the proposed changes are to increase generic use of prescription drugs and to reduce overall costs without reducing retiree healthcare coverage (see City Clerk File #12-29).

2. John Ogden, Director of Finance, highlighted the following current financial situation and a review of the preliminary budget:

Current budget - Revenues are close to the adopted budget. Income tax for this past quarter is higher than previous years at this time, but should remain flat overall. An increase in revenue sharing from last year will help slightly. Expenses continue to be less than budgeted due to the diligence of City staff.

Upcoming budget - After the preliminary review of the budget requests by departments for the next fiscal year, it appears that there will be a shortfall.

- *Revenues* are expected to be about \$300,000 less mainly due to lower property taxes.

- *Expenses* are about \$1.3 million higher than the current budget mainly due to increases in health care and pension; increases in police and fire wages as part of their contracts; and police department overtime.
- *Other reductions in expenses* that will occur will be the sharing of an existing employee between two departments (HR and fire); replacement of a full-time employee with a part-time person in assessing; and the fire department collaboration.
- *Police Department grant funding* is continuing to be sought after to pay for additional police officers. A change in how certain services are delivered is being reviewed for possible cost reductions, such as acquiring software for self-reporting of crimes electronically.
- *An administrative fee* charge for the collection of property taxes might be an option for raising revenues. Many townships and cities in the County already add this type of fee to their property tax collections. Given that most residents' tax bills have been greatly reduced over the last few years, this might be an appropriate time to institute this item.
- *Privatizing/consolidation of services with other municipalities* is continuing to be reviewed and include: mergers/collaborations of human resources and planning/housing functions with the County; privatization of the information technology department and motor pool services.

The Mayor asked administration to keep the Council updated on the budget and to inform them if grant funding can be found for additional police officers. She also mentioned that the budget will be received in April and a public hearing will be held the first meeting in May to hear public comments. A workshop meeting will follow shortly thereafter to further discuss the budget.

On motion (7:55 p.m.), meeting adjourned.

CM-8. Councilmember Harris moved the adoption of the following City Manager's recommendation, seconded by Councilmember Archibald:

For the past several years the City has been working to replace the bleachers at the Pine Grove Park softball field. The total project cost, including handicap accessibility improvements, is anticipated to be \$150,000.

The City has recently received notification that the City's insurance carrier, Michigan Municipal Risk Management Authority (MMRMA), has awarded the City a \$30,000 grant from their Risk Avoidance Program (RAP). This award, together with the recently accepted grant from the Stebbins Family Foundation of the Community Foundation for Southeast Michigan for \$50,000 and the City's portion of the St. Clair County Parks millage appropriation, finalizes the funding components for this project.

This summer, a national softball tournament will be played in Port Huron and the Pine Grove Park field is being promoted as one of the premier locations and will provide a great opportunity to promote our facilities and community. Now that the project funding has been secured, the timing necessary to complete this project prior to the summer season and this national event will need to move forward quickly.

It is, therefore, recommended that the Pine Grove Park bleacher project proceed at a cost not to exceed \$150,000 as follows:

1. The City Council does hereby accept the terms of the MMRMA Risk Avoidance Program grant, which authorizes 50% funding reimbursement up to a maximum of \$30,000 for this project, and authorizes the appropriate department head, or their designee, to execute all necessary documents related thereto and for the Parks and Recreation Departments to act as the project coordinators and authorized representatives. (See City Clerk File #12-42 for a copy of the MMRMA notice of award).

2. The City received bid proposals from six (6) companies, as detailed below, to provide, assemble and install the bleachers. After evaluation, it has been determined that the proposal from Park and Pool, 40 Park Place, Lexington, Virginia, 24450 in the amount of Eighty-Nine Thousand Eight Hundred Ninety-Nine and 12/100 dollars (\$89,899.12) be accepted and that the appropriate City officials be authorized to execute the necessary documents.

Park and Pool	\$89,899.12
Sinclair Recreation	\$91,111.00
Game Time Athletics	\$91,260.00
Snider & Associates, Inc.	\$91,264.00
DGJD, Inc.	\$91,467.00
Bleachers International	\$93,727.00

3. Due to the timing necessary to complete the bleacher project prior to the summer season and the national softball event, the City Council hereby authorizes administration to select and award bids to appropriate local companies based on bid proposals and/or ability to perform the necessary remaining elements of this project. Estimated costs for additional items are as follows:

Concrete	\$15,000.00
Concrete install laborer	15,000.00
Fencing materials	10,000.00
Removal of current bleachers	5,000.00
Score's booth & dugouts	8,000.00
Groundwork	3,000.00
Miscellaneous	<u>4,100.00</u>
Total additional work	\$60,100.00

Motion adopted unanimously.

- Close the building and mothball it until future use/funding can be found. Legacy costs, liability insurance and parking lot maintenance costs will still be incurred.
- Repurpose all or part of it for a different purpose (i.e., office building, art gallery, regional museum, etc.)
- Continue to operate it as a sports, recreation & theater complex with two ice rinks or as a sports, recreation & theater complex with multi-purpose flooring so additional sports can be played indoors year-round. Nationally, these two options do not make money and are considered well-run if they come close to breaking even.
- Hire a management company to operate the facility and bring in additional entertainment. Typically, this will cost more, but might improve entertainment options in the building.

The Authority has been meeting weekly to determine goals. Meetings with stakeholder groups are being scheduled to share with them the current state of the facility, the options available and to get a feel for which direction makes the community most comfortable. They are hoping to establish stakeholder committees to help the Authority move forward with strong support from the community. Feedback will be reviewed and the Authority will then plot a course of action.

Following the presentation, some of the general items discussed between Council and Authority members included better involvement and communication with downtown businesses and restaurants is necessary; work is needed to reverse the negative perceptions and inaccurate information circulating about the facility; increased advertisement of events is critical; a capital improvement campaign should be considered; the community is supportive and value recreational activities which is evident by approval of past millages.

The Council expressed their thanks to the Authority for the presentation and for their hard work and dedication. It was mentioned that following the stakeholders meetings, the Authority will provide an update to the Council on the feedback received.

Mayor Repp announced that the Council will be setting the budget public hearing date at the next regular meeting. She asked Councilmembers to review their schedules for available dates to meet once prior to the public hearing (April 23 through the first week of May) and after the public hearing (May 15 through 17).

On motion (7:40 p.m.), meeting adjourned.

Special meeting of the City Council of the City of Port Huron, Michigan, held May 7, 2012, at 6:00 p.m. in Conference Room 408, Municipal Office Center.

The meeting was called to order by Mayor Repp.

Present: Mayor Repp; Councilmembers Archibald (arrived at 6:21 p.m.), Cole, Harris, Lewandowski and Ruiz.

Absent: Councilmember Moeller.

PUBLIC COMMENT

No one wished to speak.

MISCELLANEOUS BUSINESS

1. John Ogden, Director of Finance, gave a presentation on the proposed 2012/2013 budget proposal (see City Clerk File #12-57). Following the presentation, some of the items discussed included:

- Reductions in water and wastewater budgets would have to come from reduction of employees and operational savings.
- Due to the City's bond rating being downgraded, costs to borrow have increased and the projections to the year 2020 include anticipated projects at this time (Nern Street CSO and plant improvements).
- The proposed 1% property tax administration fee will assist in offsetting costs for additional police officers while property owners will not see an increase in cost at this time due to the decrease in property taxes by almost 9%.

- If the Court Street pool were to be closed, the capital money for Parks and Recreation could be set aside to plan for a 'splash park' instead.
- Program costs for recreation are now shared by the townships allowing the City to continue to provide 'quality of life' services to the residents.
- The motor vehicle pool (which is \$244,000 less than last year) is charged with buying the equipment, gas, maintenance, etc., and by charging the rental rates to each department, the costs stay more consistent so the departments don't have a spike when gas prices fluctuate, or vehicles are purchased, etc.
- The major street fund budget is up due to street sweeping being moved to this fund.
- To reduce expenditures, all avenues, such as collaborations, outsourcing of services, elimination of car allowances, etc., need to be explored before additional fees are placed on the citizens.

City Manager Brown requested that specific questions be sent to him as soon as possible so staff could be prepared to respond at the May 16, 2012, Special City Council meeting.

Mayor Repp noted that with City revenues declining, as well as state revenue sharing declining, it is commendable that staff has been able to continue to provide services to the residents. While the processes might be different, cuts to services have not been made as yet.

On motion (8:13 p.m.), meeting adjourned.

Motion adopted unanimously.

CM-2. Councilmember Moeller moved the adoption of the following City Manager's recommendation, seconded by Councilmember Archibald:

The City Council is authorized under City Code to require owners of lots and premises to install and maintain sidewalks in the public streets adjacent to and abutting upon such lots and premises. When a request to remove a sidewalk is received, the City Council has the ability to authorize its removal.

At the May 14 2012, regular meeting, the City Council referred to administration for a report and recommendation a communication that was received from Jeffrey Young, owner of 1532 Lyon Street, requesting permission to remove the sidewalk located on the west side of his property.

The Department of Public Works has conducted a review of the matter and has no objection to approving the request to remove approximately 57 linear feet of public sidewalk along the west side of 1532 Lyon Street for the following reasons:

- The City received a complaint on April 16, 2012, regarding a sidewalk in disrepair located 1532 Lyon Street. An inspection was conducted and it was determined that the sidewalk was in a state of disrepair. The property owner was put on notice to repair April 25, 2012.
- On April 30, 2012, the property owner called and requested to remove the sidewalk instead of repairing it because it was not part of a sidewalk system.
- On May 8, 2012, the City Clerk received a written request from Jeff Young, owner of 1532 Lyon Street, requesting permission to remove the sidewalk.
- An inspection was done to determine if there was an existing sidewalk system in place. There are no other existing sidewalks on the west side of 12th Avenue.

It is City Administration's recommendation that the request of Jeffrey Young for the removal of that section of the sidewalk along Lyon Street only adjacent to 12th Avenue be approved at no expense to the City since this portion of the sidewalk is not a part of an existing sidewalk system and is essentially a sidewalk to nowhere.

It is further recommended that the right-of-way permit required to be obtained by Mr. Jeffrey Young for the removal of this sidewalk include language that in the future should the City Council order a sidewalk to be reinstalled that it will be done at no cost to the City of Port Huron.

Motion adopted unanimously.
