NOTICE TO DEMOLITION CONTRACTORS AND HOMEOWNERS

It is the responsibility of the demolition permit holder to submit required documentation and schedule required inspections for each demolition and site restoration activity indicated on the attached form. Permit holders must call for inspections at least 24 hours in advance of required inspection and must not continue demolition or site restoration activities beyond the required documentation or inspection until authorized by the City.

If demolition or site restoration activities continue prior to submittal of required documentation or approval of required inspections, the contractor or homeowner must excavate, remove, uncover, or take whatever action is necessary for the City to conduct the required inspection at no additional cost to the City.
